It looks like she is currently assigned to Dawn Craighead, so either she or Laura will have to correct this in the system.

I'm not able to see [REDACTED] on my client drop down; I'm assuming it's because I didn't do her intake.

Subject: Fwd: Invalid Client SSN

This needs to be corrected ASAP. Today. This can get us in big trouble because it can look like we are trying to cheat the system with ineligible/fake clients

Laura

Subject: Invalid Client SSN

Hi Laura,

It has come to my attention that the SSN entered for [REDACTED] is not a valid SSN. It is extremely important that each client have the correct SSN entered into the A2A database, because that is how the system checks to ensure a client is not enrolled with more than one provider. Please obtain the correct SSN from her, and enter it into the system.

Thanks,

Emily Kraft
